

Connexia Consulting Selected as Intuit Solution Provider for QuickBooks Enterprise

Connexia Consulting, LLC has been selected as an Intuit® Solution Provider. Connexia Consulting, LLC now offers a full range of value-added consulting services for Intuit QuickBooks® Enterprise Solutions (www.enterprisesuite.com) developed by Intuit Inc., a leading provider of business and financial management solutions for small and mid-sized businesses, consumers and accounting professionals.

The Intuit Solution Provider Program will enable Connexia Consulting, LLC to better serve regional clients and build their business through the sale, implementation and service of integrated solutions. The program's lead offering, Intuit QuickBooks Enterprise Solutions, is a flexible and affordable business management solution designed specifically for growing businesses. QuickBooks Enterprise helps businesses efficiently input, organize and access the information they need to manage finances, inventory, sales, purchasing and employees, and make key decisions for growth.

“Our clients needed more entry-level accounting solutions and Intuit offers exactly that,” commented Rob Cini, Principal of Connexia Consulting, LLC. “We searched the market for software with stronger security, system controls, functionality and transaction volume than what is offered by your basic in-store accounting solutions to meet the demands of our mid-market business clients.”

"QuickBooks Enterprise Solutions offers our clients a flexible solution to meet their needs as their business grows--at a price that is thousands below competitive products," continued Rob Cini. "It bridges the gap between in-store accounting software and larger accounting packages, which may be more costly than our mid-market clients need."
